PROFESSIONAL SUMMARY

Full Stack Developer specialized in MERN Stack and Django with hands-on experience in building scalable end-to-end web applications. Skilled in developing secure authentication systems (JWT, 2FA), RESTful APIs, and real-time applications using Socket.IO. Completed 13+ mini projects and 3 major full-stack applications, demonstrating strong expertise in React.js, Node.js, MongoDB, SQL, and modern UI development.

PROJECTS

E-Commerce Shopping Cart System | MERN + Redux

End-to-end e-commerce platform with cart, checkout, and admin dashboard.

- Developed a full-stack e-commerce application with product listing, detail view, and cart management
- Built 8+ REST APIs for products, users, and order processing
- Implemented Redux for global state management handling multiple UI states
- Designed complete checkout workflow including cart updates and order placement
- Developed admin dashboard with CRUD operations for managing products and users
- Integrated JWT-based authentication for secure login and user sessions

Tech Stack: React.js, Redux, Node.js, Express.js, MongoDB

GitHub (Frontend): [Link](#)

GitHub (Backend): [Link](#)

Social Media Application | MERN Stack

Full-stack social networking platform with secure authentication and real-time communication.

- Built a social media application with 8+ core features including posts, comments, and user profiles
- Implemented JWT authentication with Two-Factor Authentication (2FA) for enhanced security
- Developed REST APIs for posts, comments, followers, and user management
- Integrated real-time chat functionality using Socket.IO
- Created protected routes using middleware for secure access control
- Implemented file upload system for profile images using Multer

Tech Stack: MongoDB, Express.js, React.js, Node.js

TECHNICAL SKILLS

Frontend Technologies

HTML5, CSS3, Bootstrap 4/5, JavaScript (ES6+), React.js, Redux, React Router DOM.

Backend Technologies

Node.js, Express.js, Django, Django REST Framework.

Databases

MongoDB, SQL.

Tools & Technologies

GitHub, VS Code, Postman, REST APIs, JWT Authentication, Socket.IO, Axios, Mongoose, Multer, Chart.js

Soft Skills

Problem Solving, Communication, Team Collaboration, Time Management, Adaptability.

EXPERIENCE (PROJECT-BASED)

Full Stack Developer

- Developed 3+ full-stack web applications using MERN stack and Django for real-world use cases. Built and integrated 10+ RESTful APIs for real-world use cases.
- Designed and implemented RESTful APIs for product management, user authentication, and data processing.
- Implemented secure authentication using JWT and Two-Factor Authentication (2FA).
- Built responsive and user-friendly interfaces using React.js with dynamic state management.
- Integrated real-time features such as chat and notifications using Socket.IO.
- Managed structured and unstructured data using MongoDB and SQL databases.
- Deployed applications using platforms like Vercel and Render.

Electricity Board Management System | Django + React

Data management system with bulk upload, filtering, and visualization.

- Developed a full-stack data management system using Django and React
- Built 8+ REST APIs using Django REST Framework for managing applicant data
- Processed 1000+ records using bulk CSV upload with Pandas
- Implemented search, filter, and pagination for handling large datasets
- Integrated Chart.js for data visualization and analytics dashboard
- Optimized UI performance and data handling for better user experience

Tech Stack: React.js, Django, SQL

GitHub Repository (Backend): [Link](#)

with proper frontend-backend integration

EDUCATION

Master of Computer Applications (MCA)

Jamal Mohamed College, Trichy
Pursuing (2025–2027)

Bachelor of Science in Computer Science

Jamal Mohamed College, Trichy
Completed: Apr 2025

CERTIFICATION

Full Stack Development — GUVI (HCL)

Completed: Feb 2026
